

PRODUCT DESCRIPTION

Concentrated crystals that mix with water to make a mild acid cleaner. Safe for use on colored grouts.

AREAS OF USE

Use ProClean to safely clean cement grout residue from ceramic tile and remove grout haze and efflorescence.

LIMITATIONS

Do not use on marble or other polished stone. Some high-gloss glazed tiles may etch when in contact with ProClean. It is recommended that a small area be tested prior to use.

MIXING

Mix solution in a plastic container using clean, warm water. Don't mix in metal container. Wear rubber gloves and eye protection. For general use mix 1 lb. (.45 kg) container of ProClean with 2-1/2 gallons (9.46 L) of water.

APPLICATION

Saturate tile, concrete, masonry or grout with clean water prior to application. Apply solution to wet surface and scrub with a nylon bristle brush. Work in small areas. Flush with water immediately after brushing. Do not use repeatedly or surface damage may occur.

PACKAGING

- 1 LB. (.45 KG) Jar

STORAGE

Close container after use. Keep any remaining product in original container.

SAFETY

Contains sulfamic acid. Use only with adequate ventilation. If swallowed, immediately drink 1 or 2 glasses of water and call a physician or poison control center. Avoid breathing of dust or contact with skin or eyes. Wear rubber gloves and eye protection. Use respirator if necessary. In case of eye contact, immediately flush with water and call a physician. For skin contact, wash thoroughly.

KEEP OUT OF REACH OF CHILDREN.

DO NOT TAKE INTERNALLY.

WARNING

Western States Wholesale, as blender of processed material in the State of California, we are required by Proposition 65 to warn that one or more of the components in this product, contains chemicals known to the State of California, to cause cancer, birth defects, or other reproductive harm.
